¿Por qué muchas decisiones colectivas son (in)eficientes y/o favorecen a algunos a expensas de otros? ¿De dónde viene la desigualdad en la distribución del poder político? ¿En qué medida la escasez de información sobre las intenciones, acciones o expectativas de los demás genera resultados colectivos subóptimos? Así como hay países (y empresas, y partidos políticos, y clubes de fútbol) que “funcionan bien,” otros parecen estancados en un equilibrio perverso del que (casi) todos se beneficiarían de salir. En este curso explicaremos dicha variación no como consecuencia de la bondad o maldad de los seres humanos, ni como producto del accionar maligno de fuerzas oscuras, sino como resultado de la interacción entre múltiples actores cuyas expectativas pueden diferir, o que pueden tener buenas razones para desconfiar de las intenciones o capacidades de sus pares.

El curso consta de cuatro partes. Comenzaremos viendo en qué medida el comportamiento de los individuos de carne y hueso se ajusta al ideal del *Homo œconomicus*, y cómo ello afecta la interpretación de los modelos que veremos en el resto de la clase. Luego estudiaremos cómo las asimetrías de información y los problemas de agencia moldean la representación política y el funcionamiento de las instituciones jerárquicas, como las burocracias y las “máquinas” clientelares. En tercer lugar discutiremos el rol de la coordinación de expectativas en fenómenos como las campañas electorales, la adopción y eficacia de normas (in)formales, las protestas ciudadanas, y la obediencia a las autoridades. Concluiremos examinando por qué la dificultad de comprometerse a actuar en contra de los propios intereses suele resultar en instituciones y políticas estables pero colectivamente subóptimas.

Calificación

- **Participación (15%).** Debes leer la bibliografía obligatoria y participar activamente en las discusiones en clase.
- **Reseña (1): Película (34%).** A más tardar el miércoles 19 de octubre a las 13:00hs, deberás entregar un ensayo de hasta 5 páginas, a doble espacio, explicando cómo la película *All the President's Men* refleja (algunos de) los temas vistos en el curso.

- **Reseña (ii): Libro (51%).** Debes elegir uno de los libros listados en la siguiente sección y escribir una reseña discutiendo la conexión del mismo con (alguno de) los temas vistos en el curso. La calificación del trabajo final tendrá tres componentes:
 - *Selección.* La fecha límite para elegir el libro a reseñar es el miércoles 24 de agosto a las 23hs. Enviar tu opción a tiempo contará por el 1% de la calificación final.
 - *Síntesis del argumento.* A más tardar el miércoles 9 de noviembre a las 13:00hs deberás entregar un texto de 3-4 páginas, a doble espacio, sintetizando *con tus propias palabras* el argumento del libro elegido. El texto será calificado como (i) bueno (5% de la calificación final); (ii) regular (2.5%); ó (iii) no entregado (0%).
 - *Reseña.* En fecha a definir durante el período de finales deberás entregar un texto de hasta 8 páginas, a doble espacio, analizando el libro elegido a la luz de las lecturas vistas en el curso. La reseña contará el 45% de la calificación final.

Puedes pasar dichas secciones por alto; el foco del curso es la intuición detrás de los modelos, no las demostraciones matemáticas de los mismos.
